**Pulaski ratings:** These ratings are general guidelines; project work requirements may vary widely. A Pulaski is a firefighting tool that we use often in trail maintenance and construction.

 Project is suitable for a wide range of abilities, with a moderate work level, may include a short hike, usually something for almost everyone.

 Project has more physically challenging work activities, may require hiking with some elevation change.

 Project will require a more strenuous hike with significant elevation change and more physically challenging activities.

Since 1982 the New Mexico Volunteers for the Outdoors (NMVFO) have been recruiting people like you to volunteer for service projects that benefit trails and other recreational sites in national and state parks, forests, monuments, wilderness areas, city open space areas, and other public lands. The projects scheduled this year help maintain these valuable resources. NMVFO is a 501(c) 3 all volunteer nonprofit organization.
